

CLASSICAL PERFORMANCE - GUITAR, MM

It is the objective of the Master of Music in Classical Guitar to provide the necessary training to thrive as a multifaceted professional classical guitarist. In addition to developing comprehensive musicianship skills, analytic abilities, and stylistic knowledge, the student will:

- Refine all technical and musical abilities through the study and performance of challenging works from traditional and modern repertoires;
- Experience ongoing solo and ensemble performing opportunities;
- Develop principles and methods for teaching, with an emphasis on critical listening, problem-solving, verbal articulation, psychological insights, communication, inspiration, and clarity;
- Hone the skills to effectively transcribe repertoire from other instruments.

Applied study at the graduate level builds toward a technically and artistically demanding (as well as stylistically balanced) final recital. All graduate repertoire is selected at the teacher's discretion, and jury and recital parameters are listed on the Requirements tab within the academic catalogue.
